Amendments are being proposed to correct and clarify language throughout WAC 196-26A. WAC 196-30 will be repealed due to the large amount of language that is a duplication of language found in Chapter 196-26A, and any specific language regarding on-site wastewater treatment system designers will be moved into Chapter 196-26A. Amendments also describe the type of requested information when applying for initial and renewal applications for professional engineers, land surveyors and on-site wastewater designers and inspectors.

Additional rule development activity not on the agenda may occur as conditions warrant.
