| Certificate number | | Expiration date of current license | |

You can't practice as a professional land surveyor while your license is inactive. You may change your license to active status by writing to the Board and paying any required fees. You may need to earn 15 extra professional development hours once reactivated.

Declaration

I declare that I have examined WAC 196-16-155 (Inactive license status) and I agree that I will not practice land surveying as defined in RCW 18.43.020 until such time that I have reinstated my professional land surveyor's license to active status.
